

## REMARKS

Applicant respectfully requests reconsideration of the instant application in view of the amendments, herein, and the following remarks:

The following claims are deemed *allowable*: 1-3, 5-15, 17-23, 25-31, 33, 34 and 50-57.

The following claims are *independent*: 1, 21, 50 and 55.

The following claims have previously been *cancelled* without prejudice or disclaimer: 4, 16, 24, 32 and 35-49.

Applicant thanks Examiner for indicating that claims 1-3, 5-15, 17-23, 25-31, 33, 34 and 50-57 are allowable as set forth in the Notice of Allowability mailed December 11, 2009.

Please *add new* claims 58-60 and please *amend* claims 1-3, 5-9, 11-15, 17-20; although these claims have been amended herein to provide clarification, correct typographical inaccuracies and/or informalities, and/or to better track practical/commercial implementations/practices, Applicant submits that the originally filed claims are patentable and reserves the right to pursue the originally filed claims (as well as any claims dependent therefrom) at a later time and/or in one or more continuation/divisional application(s). Applicant submits that these new claims and/or claim amendments are supported throughout the originally filed specification and that no new matter has been added by way of these amendments. In view of the concurrently filed RCE, Applicant respectfully requests entry of these new claims and claim amendments for substantive examination. Applicant notes that new claims 58-60 are based on allowable claims 1 and 9.

## CONCLUSION

Applicant asserts that the above remarks, which distinguish the claims over the cited reference(s), pertained only to noted claim element portions. These remarks are believed to be sufficient to overcome the prior art to this Office Action (and/or any previous office action(s)) (hereinafter “Office Action(s)”). While many other claim elements and/or bases for rejection were not discussed, as they have been rendered moot based on the above amendments and/or remarks, Applicant asserts that all such remaining and not discussed claim elements and/or bases for rejection, all, also are distinguished over the prior art, and Applicant reserves the opportunity to more particularly traverse, remark and/or distinguish over any such remaining claim elements and/or bases for rejection at a later time, should it become necessary.

Further, any remarks that were made in response to the Office Action(s)’ objection and/or rejection as to any one claim element, and which may have been re-asserted as applying to other Office Action(s) objection(s) and/or rejection(s) as to any other claim element(s), any such re-assertion(s) of remarks are not meant to imply that there is commonality about the structure, functionality, means, operation, and/or scope of any of the claim element(s), and no such commonality is admitted as a consequence of any such re-assertion(s) of remarks.

Consequently, the reference(s) cited the Office Action(s) do not result in the claimed invention(s), there was/is no motivation, basis and/or rationale for such a combination of references (i.e., cited references do not teach, read on, suggest, or result in the claimed

invention(s)), and the claimed invention(s) are not admitted to be prior art. Also, Applicant does not accept, admit, and/or concede to any Official Notice that has been taken and/or (mis)characterizations of claims made in the Office Action(s). As such, Applicant does not concede that any claim element(s) have been anticipated and/or rendered obvious by any of the cited reference(s) and/or any Official Notice in the Office Action(s).

Thus, the Applicant respectfully submits that the supporting remarks and claimed inventions, claims 1-3, 5-15, 17-23, 25-31, 33, 34 and 50-57, all: overcome all rejections and/or objections as noted in the Office Action(s), are patentable over and discriminated from the cited reference(s), and are in a condition for allowance. Accordingly, Applicant respectfully requests reconsideration and withdrawal of the rejection(s) and/or objection(s), and allowance of all claims.

Applicant hereby authorizes and requests that the Commissioner charge any additional fees that may be required for consideration of this and/or any accompanying and/or necessary papers to Deposit Account No. 03-1240, Order No. 17209-601. In the event that an extension of time is required (or which may be required in addition to that requested in a petition for an extension of time), Applicant requests that the Commissioner grant a petition for an extension of time required to make this response timely, and, Applicant hereby authorizes and requests that the Commissioner charge any fee or credit any overpayment for such an extension of time to Deposit Account No. 03-1240, Order No. 17209-601.
